Sprucera

20m² | 5.4m x 3.8m | studio

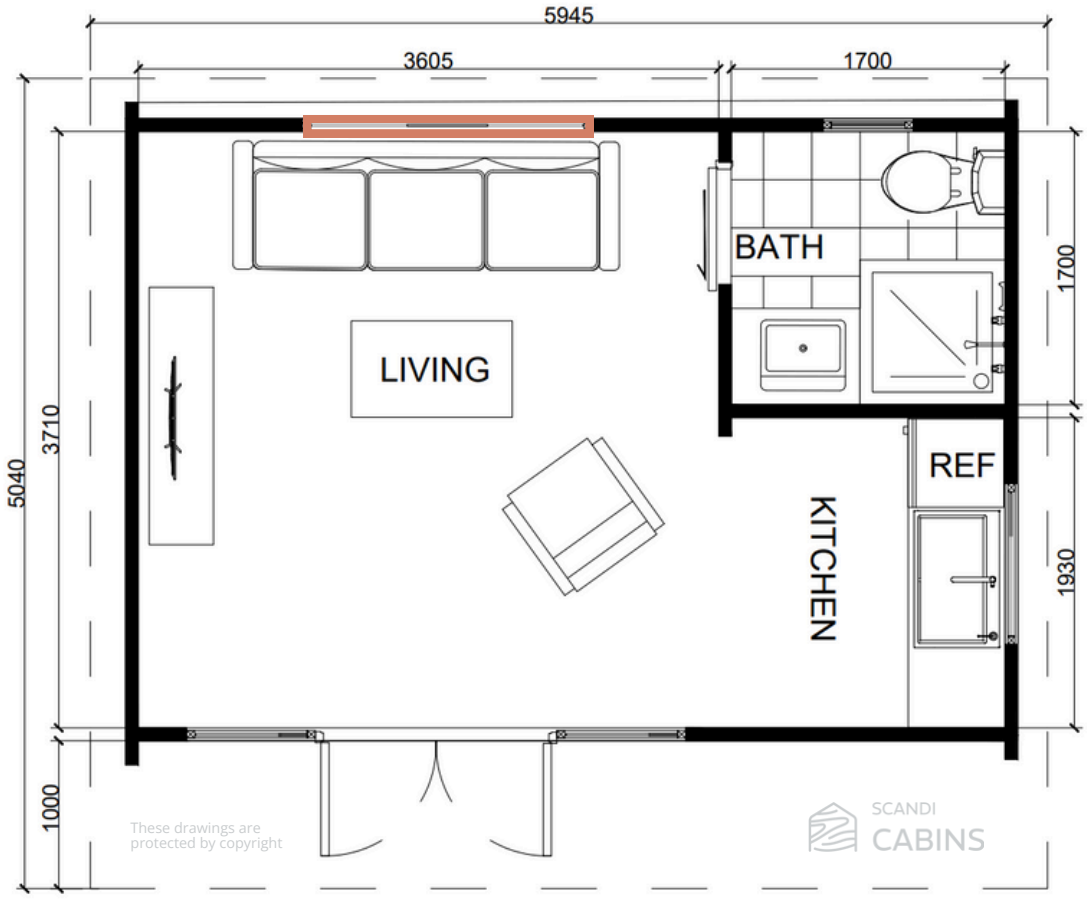

Elegant and functional, our most popular cabin, Sprucera, features a separate room inside that can be used as a bathroom or for storage. It serves as the ultimate teenage retreat, a home office, or the perfect space for sleepover guests. The cabin boasts panoramic French doors, German hardware, and double glazing in both doors and windows.

80 External and internal LGL wall thickness (mm) shown in this drawing

External wall construction: 80mm LGL glulam mass timber walls plus ~120mm insulation and cladding if required

Floor plan can be flipped, must be specified on order

Customizable placement of windows marked red on the floor plan
